ANDALEX has been working on revisions to our mining and reclamation plan in order to satisfy the requirements of your August 19 deficiency letter. This letter was received in this office on August 30 and so your recommended deadline for the submittal of September 20 was already fast approaching. We are aware of the importance of this submittal however due to the timing of our correspondence, we respectfully request an extension of time until September 30, 1999 to accurately complete these revisions and additions.

Thank you for your consideration.

Sincerely

Michael W. Glasson  
Senior Geologist
